

What is waste and how to avoid prosecution

Introduction

This course is designed for anyone wishing to understand the issues surrounding waste within their organisation.

It is particularly useful for Managers and Supervisors but it is equally beneficial to team leaders, technicians or any other employees.

Course Location

On site at your premises or at our dedicated training facility.

Course Duration

One day.

Key Topics

- What is waste?
- The “Duty of care”.
- Non-hazardous waste.
- Hazardous waste.
- WEEE.
- Waste minimisation.
- Up coming changes to waste law.
- Interactive workshops to include how to complete a waste transfer note and consignment note to meet the requirements of legislation.

Qualification

On attending the course the delegate will be awarded a certificate of course completion.

All courses are delivered by qualified trainers with practical experience
